

THE LAST FRAME

PRODUCTION CALL SHEET

PRODUCTION INFORMATION

Call Sheet ID	TLS-CS-001
Production Company	TBD
Project Manager	TBD
Date	TBD
Total Shoot Days	2

LOGLINE

A freelance filmmaker discovers her camera records future events, including a warning from her future self about an impending disaster and a mysterious betrayal, forcing her to make a critical choice to alter her fate.

SHOOT DAY OVERVIEW

DAY	DATE	LOCATION	CREW CALL	FIRST SHOT	LUNCH	WRAP
Day 1	TBD	Maya's Apartment	16:00	18:00	22:00 - 23:00	05:00
Day 2	TBD	Train Station	17:00	19:00	23:00 - 00:00	06:00

CAST OVERVIEW

MAYA SEN — TBD
FUTURE MAYA — TBD
DANIEL — TBD

DAY QUICK CALLS

DAY 1	Maya's Apartment	Crew 16:00	Shot 18:00	Lunch 22:00 - 23:00	Wrap 05:00
DAY 2	Train Station	Crew 17:00	Shot 19:00	Lunch 23:00 - 00:00	Wrap 06:00

SHOOT DAY 1

LOCATION	CREW CALL	FIRST SHOT	LUNCH	WRAP
Maya's Apartment	16:00	18:00	22:00 - 23:00	05:00

SCENES

SCENE 1 — INT. MAYA'S APARTMENT - NIGHT

Summary: Maya works on monitors when her old digital camera mysteriously turns on, showing a future timestamp. She discovers a video file from her future self.

Estimated Shooting Time: 4 hours

Characters: MAYA

Props: Digital camera, Monitors, Laptop

VFX: Rain crawling down window; Red recording light turning on; Camera screen displaying future timestamp and filenames; Camera screen displaying video file list

Notes: Establish Maya's solitary world. Focus on camera as unsettling element. Capture clean plates for VFX.

SCENE 2 — ON THE LAPTOP SCREEN - VIDEO

Summary: A video plays showing Future Maya in a damaged apartment, warning current Maya about an upcoming event, the 11:47 train, and not to trust Daniel.

Estimated Shooting Time: 2 hours

Characters: FUTURE MAYA

Props: Laptop

VFX: Laptop screen video playback (screen replacement) of Future Maya in a damaged apartment

Notes: Convey urgent information through recorded message. Coordinate VFX playback with actor performance. Capture clean plates for screen replacement.

SCENE 3 — INT. MAYA'S APARTMENT - LATER

Summary: Maya receives a text and call from Daniel, who also saw a future video and urges her to destroy the camera. The apartment lights flicker, and the camera begins recording again.

Estimated Shooting Time: 3 hours

Characters: MAYA, DANIEL

Props: Phone, Digital camera

VFX: Apartment lights flickering; Red recording light turning on

Notes: Show immediate consequences and Daniel's connection. Emphasize unsettling supernatural elements. Coordinate practical effects (flickering lights) with VFX.

CAST ON CALL	CREW ON CALL
• MAYA SEN	• Director
• FUTURE MAYA	• Assistant Director
	• Director of Photography
	• Gaffer
	• Grip
	• Sound Mixer
	• Production Designer
	• Hair/Makeup Artist
	• Wardrobe Stylist
	• VFX Supervisor
	• Script Supervisor
	• Production Assistant

DAY 1 — PRODUCTION RESOURCES

REQUIRED PROPS

- Digital camera
- Monitors
- Laptop
- Phone

REQUIRED EQUIPMENT

- Camera package (mid-range professional)
- Battery-operated LED lighting kit
- Sound recording equipment (boom, lavs, recorder)
- VFX monitoring station (laptop/monitor for playback)
- Silent generator
- Sound blankets

PRODUCTION NOTES

- Plan for extensive neighbor outreach and obtain written permissions for night shoot.
- Utilize silent generators and sound blankets to minimize noise during night filming.
- Careful lighting control to avoid light spill into neighboring residences.
- Coordinate VFX playback for camera screen displays (future timestamp, filenames) and laptop screen (Future Maya video).
- Capture clean plates and reference footage for all VFX shots.
- Manage equipment footprint to minimize disruption in the residential setting.

SAFETY & LOGISTICS

- Secure a formal location release from apartment owner/management.
- Confirm local film permit requirements with city/county film office for residential filming.
- Ensure Certificate of Insurance names property owner/management as additional insured.
- Manage all cables and equipment to prevent trip hazards within the apartment and common areas.
- Thorough neighbor notification with detailed filming schedules and contact information.

NEXT SHOOT DAY

SHOOT DAY 2

LOCATION	CREW CALL	FIRST SHOT	LUNCH	WRAP
Train Station	17:00	19:00	23:00 - 00:00	06:00

Scenes scheduled: 1

Location: Train Station

SHOOT DAY 2

LOCATION	CREW CALL	FIRST SHOT	LUNCH	WRAP
Train Station	17:00	19:00	23:00 - 00:00	06:00

SCENES

SCENE 4 — INT. TRAIN STATION - NIGHT

Summary: At the train station, Maya's camera records a figure behind her and a train derailing. Daniel, on the arriving train, urges her to get off. She does, and the timeline updates.

Estimated Shooting Time: 9 hours

Characters: MAYA, DANIEL

Props: Digital camera, Phone, Train

VFX: Camera screen displaying recorded footage of a figure appearing behind Maya (screen replacement); Camera screen displaying stylized train derailing (screen replacement); Camera screen displaying 'TIMELINE UPDATED.' (screen replacement)

Notes: Build tension and urgency in a public, chaotic space. Focus on critical decision and timeline alteration via camera display. Coordinate VFX playback with actor performance. Capture clean plates for all VFX shots.

CAST ON CALL	CREW ON CALL
• MAYA SEN	• Director
• DANIEL	• Assistant Director
	• Director of Photography
	• Gaffer
	• Grip
	• Sound Mixer
	• Production Designer
	• Hair/Makeup Artist
	• Wardrobe Stylist
	• VFX Supervisor
	• Script Supervisor
	• Production Assistant
	• Safety Officer

PRODUCTION RESOURCES

PROPS
• Digital camera
• Phone (for Daniel)
• Train (as part of location infrastructure)
EQUIPMENT
• Camera package (mid-range professional)
• Battery-operated lighting kit (compact, efficient)
• Battery-operated sound recording equipment
• VFX monitoring station
• Walkie-talkies (for crew communication)
• Safety vests (high-visibility)
• Portable barricades/cones (for crowd control)

DAY 2 — PRODUCTION NOTES & SAFETY

PRODUCTION NOTES
• Strategic shot blocking and framing to avoid capturing identifiable members of the public without consent; consider paid extras if necessary.
• Coordinate VFX playback for camera screen displays (figure behind Maya, stylized train derailing, 'TIMELINE UPDATED.').
• Capture clean plates and reference footage for all VFX shots.
• Review costume design for Maya and Daniel to avoid prohibited colors (red, yellow, green) that interfere with railway signals.
• Plan for efficient movement of compact, battery-operated equipment due to station restrictions.
• Develop clear contingency plans for potential disruptions from active train schedules or public interference.
SAFETY & LOGISTICS
• Initiate permit application process immediately with relevant railway operator and local film commission. Be prepared for extensive documentation and lead times.
• Secure Public Liability Certificate of Insurance with substantial coverage (e.g., no less than \$20M AUD) naming the railway authority as an additional insured.
• Mandate Railroad Safety Training for all crew members working near tracks or platforms. A dedicated safety officer is required on set.
• Strictly adhere to all railway operator instructions, including equipment restrictions (e.g., battery-only power, lighting limitations), and operational protocols.
• Confirm filming hours and specific night-time protocols with the selected station operator to avoid peak operational hours and comply with restrictions.
• Manage all cables and equipment to prevent trip hazards on platforms and public access areas.
• Avoid activity that disrupts staff, passengers, or train operations. Be aware of moving equipment at all times.
• Drones are generally not permitted; confirm with railway operator if any aerial shots are considered.
